Excavation Season HIPPOS (SUSSITA) EXCAVATIONS

The ancient city of Hippus, one of the Decapolis, is located upon the plateau of Sussita Mountain overlooking the Sea of Galilee.

The Hippus dig offers an exciting opportunity of uncovering an ancient city in one of the most dramatic sceneries in the region.

The team lodges in the beautiful kibbutz Ein-Gev on the shores of the Sea of Galilee.

During the upcoming season we plan on excavating the following areas in addition to conservation work:

- A Roman period *cardo* and *insulae* around it
- The Roman-period theater at the Saddle Compound
- The necropoleis

The Hippus 2026 field work will extend for four weeks:
June 28th – July 23rd 2026.

1. One weeks participation
(minimum) – cost for full room and board: **\$825**

2. Four weeks (full season)
participation – cost for full room and board: **\$2,990**

During weekends (Fri-Sat) the participants choose whether to stay at the kibbutz (costs included) and rest, or travel in the region on their own.

The Hippus (Sussita) Excavations Project
is affiliated with the University of Haifa
and partners with ARC, and ASOR
